What started out writing one product, one line in one state has now grown into multiple products, multiple lines and writing in multiple states. We have over \$95 million in annualized premium in-force and we expect to grow by 20% during the next year all serviced by Silvervine.”

Richard Asprey, CEO

Solution Requirements

- Full Integration
- Fast Implementation
- Options to grow with their line of business.

The Company

Celestite Holdings, LCC was formed in 2012. Celestite companies manage insurance products, reinsurance, consulting, policy issuance and payment systems on behalf of Insurance and Reinsurance Companies, serving both producers and policyholders.

The Challenge

Celestite needed a system that would be quick to market and that would be flexible enough to grow with them and operate in a real time environment. Identifying a solution that would be fully integrated to handle policy writing, billing, claims and statistics was paramount to their future growth goals.

The Solution

Celestite knew the systems that were available at that time. Silvervine was chosen over the competition because they met the requirements: quick to market and flexible enough to grow with the company.

Celestite operations are supported by advanced and integrated policy writing, billing, claims, statistical and data base systems developed by Silvervine.

The Results

What started out as the original ARC LLC in 2000 has now grown in to multiple companies now under Celestite, all of which have been add since choosing Silvervine. Celestite is now over 115+ employees, \$95 million+ in annualized premium in-force and remain in a growth mode.
