

Agile P&C Policy Administration

Are you ready to compete in the ever-changing world of insurtech? To keep up with changes in the P&C insurance industry, you need a policy administration software system that's agile enough to seize opportunities before they're gone. With Silvervine Software's cutting-edge insurance technology, you'll be ready. So will your agency force.

Write and service business with ease.

Our easy-to-use technology simplifies insurance functions. The web-based core administration suite offers the flexibility you need to perfect every process.

- ✓ Automated and customizable underwriting
- ✓ Real-time quote and policy issuance
- ✓ Comparative rating
- ✓ Policy administration, including out-of-sequence endorsements
- ✓ Billing including DIY pay plans
- ✓ Claims management
- ✓ Distributions management, including direct to consumer
- ✓ Agent-friendly interface

Get real-time information, every time.

Doing things right doesn't have to be difficult. The right software makes insurance functions simple, meaning there's less risk of something falling through the cracks.

- ✓ Real-time policy data synchronization
- ✓ Real-time third-party integrations
- ✓ Automated document generation
- ✓ Streamlined management of policy declarations, schedules, forms and communications
- ✓ Easy access to data for fact-based decision-making

Seize opportunities.

Our policy administration system gives you the tools needed to take advantage of emerging trends and seize opportunities while avoiding risks.

- ✓ Direct-to-consumer selling
- ✓ Mobile engagement with chatbot technology
- ✓ Protection against security threats
- ✓ Rate modeling simulator to test proposed rate changes

On-the-Go Control

Your policy administration system shouldn't tie you down to one device. You need technology that keeps up with you, no matter where you are. Our web-based core administration suite delivers it.

Mobile Capabilities

Take control of policy information from multiple devices. With our cutting-edge insurance technology, you never have to worry about the information you need being out of reach.

- ✓ Mobile app
- ✓ Messaging technologies with chatbots
- ✓ Self-service capabilities in policyholder apps
- ✓ Electronic ID cards
- ✓ Varied electronic payment plans
- ✓ Image Capture on agent mobile apps

Cybersecurity

Embracing convenience and technology shouldn't leave you vulnerable to cyberthreats. Superior security measures keep your systems safe.

- ✓ 99.9% uptime guaranteed with managed hosting option
- ✓ Fully mirrored redundancy
- ✓ Continuous defense against hackers

Designed for You

Whether you're operating a small business or a large one, you need a policy administration system you can count on.

- ✓ Price points that fit both small and large clients
- ✓ Expertise in P&C insurance lines of business
- ✓ Fast implementation
- ✓ Customizable features
- ✓ Lower maintenance costs and fast turnaround on support requests
